YOUR DREAM FACTORY SHOWS

Shanghai International Smart Maintenance Engineering Exhibition

February 19-21, 2020

Hall W1 & W2

Shanghai New International Expo Center

www.shanghaiSMEE.com

Welcome to SMEE 2020

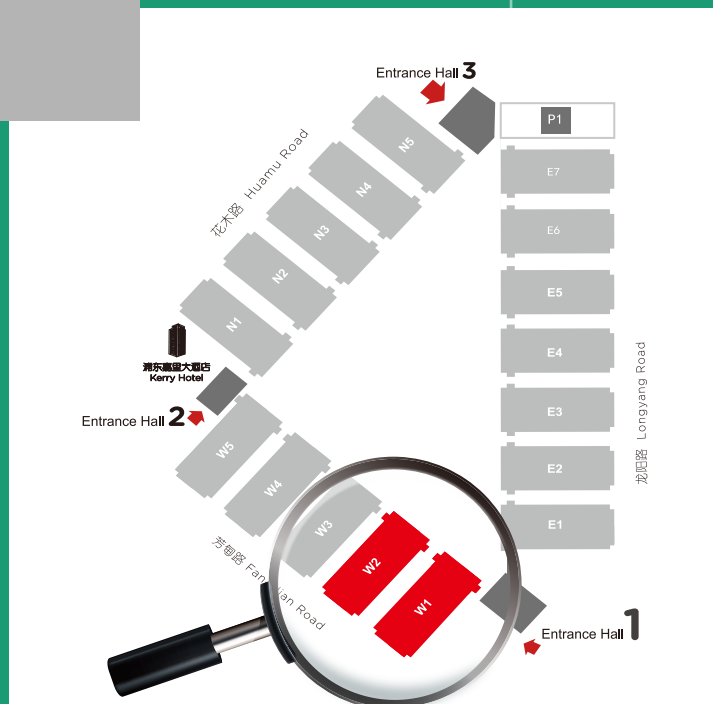

Smart maintenance of industrial equipment is a reliable way toward production stability and product quality. Remote maintenance and diagnostic services can maximally reduce the cost. Continuous monitoring and evaluation of the equipment makes predictive maintenance possible. As the flexibility of the equipment is enhanced, technology applications with higher stability can also reduce costs. More and more factories and machinery manufacturers are beginning to attach importance to smart equipment maintenance.

As the only exhibition platform for smart maintenance of industrial equipment in China, SMEE 2019 focuses on industrial maintenance industry strategy, technology, equipment and solutions, and is committed to providing more guaranteed production solutions for the manufacturing industry.

The agglomeration effect brought by up to 7 concurrent theme exhibitions will benefit your company that can also enjoy the cross-border business feast. Look forward to your arrival at SMEE Shanghai 2020!

Hall Plan W1-W2

Exhibition – One-stop Solution

It's time to show what the real technology is!

SMEE is an event for intelligent maintenance and repair works and automation applications in the fields of equipment, production line and facility.

That is, the areas covered by the three fields are as follows:

- Industrial equipment: machine tool/injection molding...
- Production line: welding line/coating line/press line/machining line/casting line/assembly line...
- Facility: petrochemical/metallurgy/power/rail traffic/aviation and other industries...

Predictive Maintenance Status Monitoring Data analysis CMMS	Mobile maintenance (Mobile equipment) Remote maintenance service Edge Computing Industrial Safety	AR/VR Maintenance services and management Quality assurance	IT solutions and services Installation and debugging Measurement and Monitoring
Outsourcing Services Production Line Upgrades Wear management / fluid management, operation and ancillary supply	Industrial cleaning services Counselling and services Maintenance, Repair & Overhaul IoT and Big Data		

Services - One-stop Solution

Professional Service Team to Ensure the Exhibiting Effects

FE Exhibitions' professional hosting and service team provides one-stop efficient exhibition services.

Customized exhibition plan Cater to your actual exhibition needs	Professional services Provide professional exhibition services to relieve your stress at preparations for participation, allowing you to focus on visitor organization and business opportunity development	Schemes of 360° all-round valuable promotion before, during and after the show Maximize exposure and benefit of exhibitors	Exhibition consultant Offer participation training to exhibitors, providing professional advice for successful participation
